ON VUTHY

Junior Full Stack Developer

PROFESSIONAL SUMMARY

Motivated Junior Full Stack Developer with practical experience in front-end development and knowledge of backend web application development using PHP and Laravel. Familiar with React.js, Vue.js, JavaScript, RESTful APIs, MySQL, and responsive web design. Experienced in developing CRUD applications, integrating frontend interfaces with backend APIs, and managing databases. Passionate about writing clean code, solving problems, and continuously improving software development skills.

WORK EXPERIENCE

Intern Front-End Developer

Jul 2026 – Oct 2026

Solution / Kru-It Solution · Phnom Penh

- Developed and maintained web application interfaces with a focus on usability and responsiveness.
- Built responsive user interfaces using modern frontend technologies (HTML, CSS, JavaScript).
- Integrated frontend components with backend APIs to deliver seamless user experiences.
- Improved overall user interface functionality and application usability through iterative design.

PROJECTS

Employee & Department Management System

Laravel · PHP · MySQL · JavaScript · Bootstrap

- Developed full CRUD functionality for employee and department management.
- Implemented backend operations using PHP and Laravel with MVC architecture.
- Designed and managed relational MySQL databases for data integrity.
- Created clean user interfaces for adding, viewing, editing, and deleting records.
- Integrated frontend forms seamlessly with backend functionality and validation.

Product Management System

Laravel · React.js · MySQL · Axios

- Developed product and category management features with full CRUD operations.
- Integrated React.js frontend forms with Laravel backend APIs via Axios.
- Used efficient MySQL queries to store, retrieve, update, and delete product data.
- Focused on clean component structure and responsive design patterns.

EDUCATION

Bachelor's Degree in Computer Science

2024 – Present

Royal University of Phnom Penh
